Credit hour equivalent calculation

Formula. The formula for the credit hour equivalent calculation is semester hours times 18 divided by number of weeks in semester.

Course 1. The credit hour equivalent calculation for Course 1 is $(3 \times 18)/6 = 9$.

Course 2. The credit hour equivalent calculation for Course 2 is $(3 \times 18)/9 = 6$.

Course 3. There is no credit hour equivalent calculation for Course 3 since it is offered during a standard term (semester hours equal credit hour equivalent).

Course 4. There is no credit hour equivalent calculation for Course 4 since it is offered during a standard term (semester hours equal credit hour equivalent).

Training time determination

If independent study is taken concurrently with resident training, the total training time is determined by adding the number of credit hours (or the equivalent) of resident training courses to the number of credit hours (or the equivalent) of independent study.
